SUMMARY

Data Scientist with 5 years of experience building machine learning models for e-commerce and fintech products. Specialised in NLP, recommendation systems, and A/B testing frameworks. Strong track record of taking models from prototype to production and communicating insights to non-technical stakeholders.

SKILLS

Python, SQL, scikit-learn, PyTorch, Hugging Face Transformers, LangChain, Pandas, A/B Testing, Feature Engineering, MLOps (MLflow, Docker), AWS SageMaker, Tableau

EXPERIENCE

Senior Data Scientist — Flipscale Retail Analytics *(Mar 2022 – Present)*

- Built a BERT-based product recommendation engine that lifted click-through rate by 18%
- Led fine-tuning of an open-source LLM (LoRA/QLoRA) for automated customer support ticket tagging, cutting manual triage time by 40%
- Designed and ran 30+ A/B tests on pricing and personalisation, presenting results to VP-level stakeholders
- Mentored 2 junior data scientists and set up the team's MLflow-based experiment tracking

Data Scientist — PaySure Fintech *(Jul 2019 – Feb 2022)*

- Developed a gradient-boosted fraud detection model reducing false positives by 25%
- Built customer churn prediction pipeline used across 3 product lines
- Automated feature pipelines in Airflow, cutting model refresh time from 2 days to 4 hours

EDUCATION

M.Sc. Data Science, Indian Institute of Science, Bengaluru (2019)
B.Tech Computer Science, VIT Vellore (2017)
